## Presentation Overview

In this series, we will be doing a deeper dive into three different prospective challenges that can arise in the authentic work of YHDP. In this first session, we will learn more about anti adulthood, white dominant culture, and the ways we can challenge the norms as Older Adult Partners. This training will provide some anti-racism 101 background and further strengthen our equity muscles as we walk alongside our Youth and Young Adult colleagues. We will explore the impacts of our intersectional identities as we navigate building deeper connection and collaboration with each other in our work.
