Queer Works

Claire is a 16 year old transgender female who left her house due to transphobia. When we encountered her she was living on the streets for 6 months and engaging in sex work.

Our team was able to connect Claire to resources for sexual health, and in addition was able to help her contact a family member she could live with while she finished her GED.

Our program is also providing free weekly therapy for Claire and her family with the hopes of reunification.

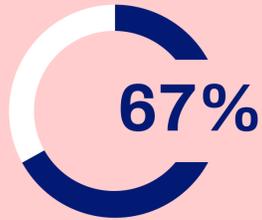

ACTIVE PROGRAMS

2019 HUD Continuum of Care Program

\$10.2 Million - 18 Projects

UPCOMING PROGRAMS

2021 HUD Continuum of Care Program

- On 3/14/2022, The County of Riverside CoC was awarded \$13.8 million to fund 22 projects
- Projects have varying start and end dates between 2/1/2022 - 6/30/2024

2022 HUD Continuum of Care Program

- On 3/8/2022, HUD announced that the registration for the 2022 HUD CoC Program is open
- Registration to be completed by 5 pm on 4/7/2022

Family Homelessness Challenge Grant Round 1 (FHC-1)

- The California Interagency Council on Homelessness (Cal ICH) announced the availability of the FHC-1 grant on 7/19/2022
- The Request for Application (RFA) was made available on 3/1/2022
- \$30 million will be distributed across a minimum of two rounds of funding. The FRA for Round 1 will total \$15 million
- The County of Riverside is preparing an application to submit prior to the deadline of 4/30/2022

EMERGENCY HOUSING VOUCHERS

The Riverside County Continuum of Care (CoC) supports the Housing Authority of the County of Riverside (HACR) to administer the Emergency Housing Voucher (EHV) program which launched September 7, 2021.

What are Emergency Housing Vouchers (EHVs)?

The American Rescue Plan Act (ARPA) provided \$5 billion for rental assistance in the form of Emergency Housing Vouchers (EHVs) that are administered by the U.S. Department of Housing and Urban Development (HUD) through local public housing agencies (PHAs) like the Housing Authority of the County of Riverside.

How are these vouchers administered?

HUD is requiring PHAs to work with their Continuums of Care (CoCs) as well as homeless service and victim service provider organizations as referral partners. PHAs must accept referrals from the CoC's Coordinated Entry System (CES).

WHO IS ELIGIBLE FOR EHV VOUCHERS?

The Housing Authority of the County of Riverside was awarded 354 Emergency Housing Vouchers

To be eligible for the EHV, individuals and families must be:

- Homeless;
- At risk of homelessness;
- Recently homeless and providing the voucher would prevent the individual's or family's homelessness or having a high risk of housing instability; or
- Fleeing or attempting to flee human trafficking, domestic violence, sexual assault, or dating violence

The County of Riverside intends to use these EHV's to:

- Launch Moving-On Initiative to turnover permanent supportive housing units: **89 vouchers**
- Support transitions for Rapid Rehousing from FY 2020/2021 & 2021/2022: **648 vouchers**
- Help individuals and families affected by human trafficking, domestic violence, and sexual assault: **50 vouchers**

Emergency Housing Voucher (EHV) Program Updates as of 3/21/2022

HMIS LEAD AGENCY

The purpose of HMIS is to record and store client-level information about the numbers, characteristics and needs of persons who use homeless housing and supportive services and about persons who receive assistance for persons at risk of homelessness over time, to produce an unduplicated count of homeless persons for each Continuum of Care, to understand the extent and nature of homelessness locally, regionally and nationally, and to understand services use and measure the effectiveness of programs

The Riverside University Health System – Behavioral Health (RUHS-BH) is the Coordinated Entry System (CES) Lead Agency for Riverside County.

2022 HOMELESS POINT IN TIME COUNT

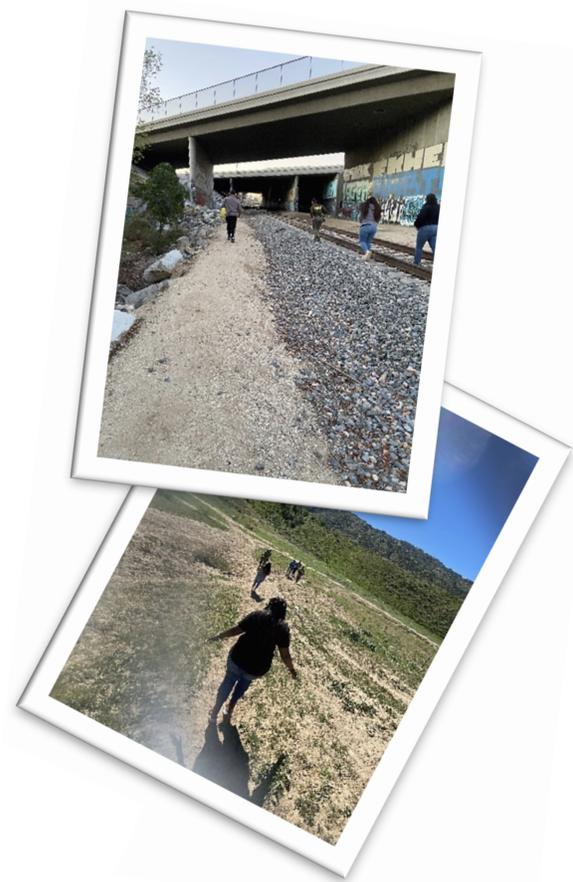

WHAT IS POINT IN TIME COUNT?

Each year, the Riverside County Continuum of Care (CoC) partners with cities to facilitate a federally mandated count of people experiencing homelessness throughout the county. Information gathered from the count is valuable because it provides a snapshot of how many people experience sheltered and unsheltered homelessness on a single night. The data is used to demonstrate need for federal and state funding, services, and resource planning, and to inform the community about homelessness.

SERVICE & HOUSING CONNECTIONS

- A 21-year-old found staying next to a donut shop in a Stater Bros. shopping center. A street outreach team connected him to emergency shelter and a provider for ongoing supportive services.
- A frail 69-year-old senior was assisted with changing into warm clothes and urgently referred to Adult Services.
- A gentleman who was drafted by the St. Louis Cardinals and Kansas City Royals and was warm in greeting our Jurupa Valley counting team.
- A 13-year-old unaccompanied minor who ran away from home and agreed to go to Operation Safehouse for shelter services.

THE TAKEAWAY

These individuals and the hundreds more volunteers interacted with on the day of the count are the reasons why our work in building and developing a homeless system of care matters. The time we take as a community to collect and analyze client-level data, enhance our coordinated entry system, train staff from agencies administering new homeless assistance projects, submit new grant applications, and develop deliverables that challenge us to serve more and do more— **is for them.**
